Open Medicine is a journal that provides **free, instant, and continued access** to all content worldwide. The journal's primary goal is to maintain the high quality of its published content with a strong focus on translational research. Its mission is to facilitate the exchange of ideas between biomedical researchers from different disciplines and countries. Papers connected to **all fields of medicine and public health are welcomed**. Open Medicine accepts submissions of **research articles, reviews, case reports, letters to the editor and communications**.

Topical/Special Issues:

- ▶ **Exploring the biological mechanism of human diseases based on Multi-Omics Technology**
- ▶ **Advancements in Oncology**
- ▶ **Advancements in Aging / Health: From molecular basis to clinical practice**
- ▶ **Diabetes mellitus: pathophysiology, complications & treatment**
- ▶ **Innovative Biomarker Discovery and Precision Medicine in Cancer Diagnostics**

Editor-in-Chief:
Vittorio Calabrese
University of Catania

Associate Editor:
Demetrios A. Arvanitis
Academy of Athens

Co-Editor:
Martin Jabůrek
Academy of Sciences
of the Czech Republic

Journal Impact Factor: 1.7
CiteScore: 3.0
